Num. of pag. (incl. this page) : 7

Dear Tony,

Thank you for sending me a copy of the EPA complaint. It is regrettable that we did not have the authorisation to use this document when we needed it most urgently, i.e. inmediately following the presentation of the EPA report by the Dutch Cancer Institute. As I told you the Dutch Cancer Institute presented the EPA report as the scientific basis for further smoking restrictions in Holland.

After internal discussions we have decided not to distribute the document yet to press contacts. We suggest another approach. Enclosed I am sending you the translation in English of the presentation by the Dutch Cancer Institute. We kindly request you to carefully review this document in order to check whether it contains any flaws or misrepresentations. If this would be the case, we could, hopefully with your help, write our comments and include the arguments laid down in the complaint. This document we would then like to send to the Cancer Institute as well as to a couple of journalists. We believe that the impact will be bigger. Please let me know your reaction.

Best regards,

2024188756
